

<div></div> <div>City of Bellevue 2009 Inspection, Reinspection, Outside Normal Hours &amp; Overtime Fees</div>	
Fee Definition	<p><i>Reinspection</i> fees are charged when a client is requiring additional inspector visits--for example, by not being ready for a called inspection or failing to correct items on a correction notice. The inspector has authority to determine when this fee is charged.</p> <p><i>Outside normal hours</i> and <i>overtime</i> inspection fees are charged when an inspection is performed outside of normal work hours at the client's request or to mitigate the disruption to nearby people or properties. The additional increment is collected to pay for the additional cost for overtime work.</p>
Fee Calculation Methods	<p><i>Reinspection</i> fee – 1-hour minimum flat fee in addition to the regular inspection fee.</p> <p><i>Outside normal hours</i> inspection fee – 2-hour minimum flat fee in addition to the regular inspection fee. Actual time over the minimum will be charged.</p> <p><i>Overtime</i> hourly fee, which is higher than the regular hourly rate, is charged by Transportation and Utilities inspectors on hourly billed permit types when the inspection is performed outside of normal work hours.</p>
Availability of Inspections Outside of Normal Hours	Inspection supervisors attempt to respond to client requests for inspections outside of normal working hours. However, this type of work is voluntary. If no inspector is available, the request is denied. If a client requests such inspection and cancels at the last minute or is not prepared for the inspection, the inspection supervisor has authority to deny any future requests.
